

Deknudt Convex Large Mirror

Elegant convex mirror with large timber frame.
DK0936

Dimensions
Depth: 6cm

Colour : Black
Material : Coated timber

Description

We love the elegance and drama of this convex mirror. The style is timeless and the impact fantastic. The outward curve of the mirror artistically distorts images reflected. This mirror has a striking and generous timber circular frame finished in black with a striking gold outline around the glass. The elegant profile of the frame means that this mirror can be used in quite traditional settings but also looks very glam in a more comfortable contemporary scheme. Stunning above a fireplace or a real feature in a hall above a console table, mirrors like this ooze charm and character in your scheme. Frame size 14cm.
