Description

Birch wood side table with black painted finish. Transform lost lounge corners with the serene sophistication of the Eichholtz McArthur Side Table Birch Wood Black Finish. Hand sculpted from birch wood with a black painted finish, McArthur is one of our favourite Eichholtz side table designs. Often specified by the Houseology interior designers for its ability to seamlessly complement classic and contemporary settings alike, this luxury side table exudes a feeling of timeless sophistication. Adorned in a jet black painted finish, this modern side table is hand sculpted from natural birch wood and features a statement X-shaped base. Placed on the floor with a balanced square base, the table provides a wobble-free pedestal to style your own home decor accessories on top. Featuring a fixed tray-like table top, the raised edging prevents topping from the sides making this table ideal for cocktail hour and entertaining with friends. Alternatively, combine the look with an Eichholtz table lamp to create an ambient focal point beside your sofa as you relax and unwind in style. No self assembly required. Approximate net product weight: 11kg
