---

### Description

A firm favourite within the studio from the uber cool French designers Elitis.  
This ultra modern wallpaper collection is hand designed and modelled using Hi Tech techniques.  
Created using non woven medium, the wallpaper is dyed en masse, then embellished using mica powder, gold, silver or pastel shades.  
Overprinted in mat, it gives a relief effect and catches the light with a brilliant sheen.  
A pixilated effect adds a touch of virtual to the design.  
The edges of the crushed paper design become flat at the edges giving the paper a virtual artwork feel.  
(10m roll)
