

Flos Spun Floor Lamp

Polycarbonate contemporary floor lamp from Flos.

FL0476

Dimensions

Height: 176.6cm

Colour : Black

Material : Spun metal frame & diffuser

Description

Polycarbonate contemporary floor lamp from Flos.

Create an ambient illumination with the Flos Spun Floor Lamp.

First designed in 2003 by Sebastian Wong, Spun is a designer floor lamp embodiment of modern manufacturing techniques.

An unusual piece heralding from the icons of Modernist design, its injection-molded polycarbonate construction make a bold style statement.

With its signature 'fluid aesthetics' and innovative spun metal frame, the design is enhanced with die-cast aluminium support arms and lamp-holder, available in a choice of painted colourways.

On the cable, there is an electronic dimmer switch allowing you to create the perfect ambience where you need it most, offering the ultimate regulation of light brightness.

Complement with accenting designer lighting from the Houseology Flos collection for a fine fusion of iconic Italian lighting design.

Approx. weight: 9.3kg

Light Source: 1 x MAX 205W E27 HSGS or 1 LED 21W E27 2450lm 3000K dimmer (bulb not included)

Dimmer: On cable - electronic dimmer allowing regulation of light brightness with a dial.

Awards: Winner of the Red Dot Design Award 2004
