### Description

Polished aluminium nautical tripod spotlight floor lamp. Transform your home interior space with the Eichholtz Royal Master Sealight.

A faithful reproduction, this antique inspired nautical tripod spotlight takes inspiration from 19th century marine lighting.

Used in times of war to communicate Morse code and on leisurely steam cruisers, this iconic luxury lighting solution creates the perfect focal point to illuminate your interior space in style.

Hand sculpted by the lighting experts at Eichholtz, the large vented spotlight is entirely adjustable allowing you direct channelled light where you need it most.

The aesthetic is then complete with a commanding tripod base which reminds us of the set lighting used during Hollywood's Golden Age.

Use to steer the style helm of your interior space and achieve a timeless stylish nautical look.

Please note: Requires 1x 60W Max light bulb (not included)

Cable length: 350cm

On/off switch on cord.
