Description

Elegant hand-woven plush velvet-like floor rug. Emulating the look of a Tibetan rug, the Calvin Klein Home - Lunar Handloomed Rug exudes luxury appeal. Hand loomed using alternating high and low-lying yarns, the curious rug pile of this distinctive designer rug is highlighted in gorgeous signature colourway hues. Plush and indulgent to the touch, the velvet-like fibres offer an understated graphic ripple pattern which adds a gentle dimension to wooden flooring and stark residential architecture schemes. Place in the lounge for an instant focal point and injection a radiant colour rush into the heart of your design scheme. Take care of your rug by reading our care tips in the 'Washing' Instructions tab below. Please note: Due to the hand loomed nature of this rug, each one is utterly unique with no two exactly the same making Lunar a bespoke design piece you can really call your own.
