### Description

Adjustable chrome and powder coated aluminum wall lamp.  
Inject iconic designer style into your chosen interior space with the Bestlite BL6 Wall Lamp.

An original 1930s design, the Bestlite BL6 Wall Lamp has been recreated by Gubi for the modern home.

Sleek with a refined elegance, the lamp profile takes inspiration from the Bauhaus design era.

Reproduced with a polished chrome construction, the swan-neck bracket elevates a striking powder coated aluminium down light lamp head, available in a choice of smart matt colourways.

An accenting circular wall rose and 2m cable cord completes the look which is directed downward from the fixture to your plug socket below.

Grace by your armchair in the lounge or channel directed light with the handy extension arm where you need it most.

Light source: 1x E14 30 W HAL light bulb (not included)

Cable length: 2 metres with EU/UK socket adaptor and on/off cable switch.

Please note: This lamp is not hardwired, instead the 2m cable runs directly down to a plug socket below.
