

## Gubi La Pedrera H2O Table Lamp

Available in different colours.  
GU0017

Dimensions  
Height: 33cm

Colour : Silver  
Material : Lacquered Metal

### Description

During the renovation of Gaudi's famous La Pedrera building in 1990 architect Joaquim Ruiz Millet discovered an original floor lamp from the La Pedrera range. As a tribute he then agreed with Barba Corsini who exhibited at the Galleria H2O's relaunch to design a pendant and table lamp to match the originally designed floor lamp. Gubi now manufactures both the Pedrera and H2O lamps.

Black and nickel models have a black textile cord, while white light blue and orange come with a white textile cord.
