### Description

The Diesel table lamp evokes the roof of a gothic cathedral or the wings of a bat with the personality of a dark natured comic book. This spiky little lamp with striped rubber feet and interplay between its shining and opaque surfaces is a cult object for new generations. An expression of original contemporary pop culture with vibrant colours to choose from, it is an unconventional gift or an ideal room mate. Requires compact fluorescent 1x12w E14 bulb (not included).
