Lacquered polycarbonate suspension lamp with  
geometric appeal.  
FO0093

Dimensions  
Height: 38cm

Colour : Brown  
Material : Lacquered Polycarbonate

---

### Description

This Diesel rock lamp is just like a volcanic rock which reveal jewels when broken apart, creating an interesting interplay of contrasts and surprises. With a mysterious and severe facet outer it has a bright diamond like iridescent inner which shimmers with its smooth sheen like surface. This light fitting definitely won't go unnoticed with its asymmetric faces to create a stunning effect. Available in 2 colours with maximum 200cm cable drop and also as a floor lamp version. Requires fluorescent 1x23w E27 bulb (not included).
