Material : Cherry Wood

Description

This fabulous campaign box with honey colour replicates the ones used in the 1920's when many travelers from Australia travelled to Savitri in Pushkar, Rajasthan to buy camel breeding stock for the Australian outback from the famous Camel fair next to the temple. On their journeys they brought along stocks of fine wines like Château Soutard and bottles of Vieille Reserve Armagnac 1883 stored in campaign boxes strapped to their Bentleys as they headed to the desert for a week or so to live in tents.

The Authentic Models' Bombay Box Side Table has beautiful character and will improve with age. Looks great as a feature piece and works really well as a nightstand or side table. Each box comes with 2 short drawers, one long drawer and a slide out shelf. It's demountable stand also makes it portable and practical.

Small handles at the side of the box are also removable. Requires light assembly where the legs fit into the top.
