Description

Luxury tapestry coffee table with brown leather trim and brass effect detailing.

Embrace the eclectic aesthetic of the Andrew Martin Kilim Trunk Coffee Table.

A chic curiosity inspired by ethnic upholstery, this tapestry style designer coffee table is the perfect complement for classic or contemporary lounge interiors.

Practical and stylish, it is rectangular in shape with a strong wood construction and unique kilim tapestry upholstery and integrated trunk storage - great for magazines, books and TV remotes.

Brass handles and buckle clip detailing provide a gentle embellishment as brown leather trim and protective corners give this discerning design piece an inviting old world quality.

Complement with accenting designer lighting and furniture from the Houseology Andrew Martin collection for a layered ambience of designer style.

Please note: Due to the artisan production process and materials used, each trunk table is unique every time with no two exactly alike.
