Polycarbonate and glass pendant lamp from Diesel.

FO0113

Dimensions

Height: overall 200cm

Colour : No

Material : Polycarbonate & Glass

Description

Diesel describe this lamp as ironic and iconic, Mysterio is a flying saucer hanging on a wire in space. Based on a magic mirror and a mysterious house right out a thriller or a 1970s B-movie this vintage inspired lamp is contemporary in its production consisting of a polycarbonate diffuser, the internal surface of which features a metallic finish split into 12 sections which reflect the light beam as if in maze of mirrors. Available in 2 colours, warm and domestic white with copper or cool refined black with silver. This lamp is perfect for transforming rooms in the home with its mysterious and original charm.

Requires 1 x 33W bulb (not included).
