### Description

A stunning designer wallpaper by Timorous Beasties. The Timorous Beasties defined and iconoclastic style of design was once described as William Morris on acid. Typical of this style is the London Toile wallpaper. At first review it looks like one of the magnificent vistas portrayed on early 1800s Toile de Jouy wallpaper, but closer inspection reveals a nightmarish vision of contemporary London displaying the dark humor of this design house.

Pattern Repeat 77cm (style quarter drop)

Please note price is per 10m roll by 52cm wide.
