Description

Are you passionate? Is a heavy vinyl wallpaper on a paper backing with silk effect from the Kandy range from Elitis. It has a mythical feel where sun beams dance across the various pigments of the paper illuminating the large abstract blossom pattern. With a very good stain and abrasion resistance this paper is extra washable and made in wide width rolls of 1m.

Created with varnished top coat for an increased UV and abrasion resistance.

Please note price is per 10m roll. 95cm (37,4") straight pattern repeat.
