Description

Voyages to the tropics during the 1900s included the use of trunks and chests which were packed with documents and other items before being hauled on exploration. This Authentic Models Salon table with 8 drawers allows for the storage of books, mail, keys and ephemera. It is both practical and decorative with the drawers opening to both sides. Robustly built to survive and with brass hardware, the leg separates from the table and is assembled with classic wedges making it endearing in an artisanal way.
