AU0189

Dimensions  
Width: 41cm  
Height: 46cm  
Depth: 25cm

Colour : Brown  
Material : Cherry & Birch Wood

### Description

This Demi-dome model is an architectural masterpiece created from cherry and birch wood and finished in subtle shades of beautiful honey similar to the models created for Michelangelo of the St Peters dome that now reside in the Vatican.

Over the centuries architects have made models to check the details of their projects in 3 dimensions and this fascinating replica with its sinuous curves and arches makes a striking home accessory.

The stylish half dome allows one to view the intricacies and beauty of the model from both the inside and outside.
