Description

Round glass dining table with solid ash wood base. Transform your dining room furniture arrangement with the convivial appeal of the Pacini e Cappellini Naxos Dining Table. Informed by the minimalism of archetypal Danish dining table silhouettes, this 'Made In Italy' interpretation exudes designer appeal. Seating up to 4 guests comfortably, Naxos comprises a transparent glass table top with smooth tempered edging. Look below to reveal a contemporary feature frame design with solid ash wood construction in a choice of natural and stained finishes. A painted metal central joint then completes the look, balancing the base and table top in style. Complement with designer dining chairs from Houseology for a complete dining room setting. Please note: This product is made to order and requires simple self assembly. If you are unsure of the stained base colourways, please contact our customer service team to order samples or to find out more information regarding alternative finishes. Approximate net product weight: 70kg
