Description

Set of 2 ornate elephant bookends.

Channel safari chic into your interior space with the Lazy Elephant Set of 2 Bookends.

Designed by Eichholtz, this charming set is a great way to keep your bookshelf organised in style.

A delightful alternative to the conventional book end, this unique set is expertly sculpted from aged iron into two charismatic elephants.

The lazy elephants tumble with minimal effort to keep the books upright so with the help of two panels of sturdy wood they get the job done in style.

Lovely for the study or as an distinctive gift for a special occasion, the Lazy Elephant collection will keep your bookshelf spick and span, without a (storage) trunk in sight!

Made by Eichholtz each set is artisan crafted with meticulous care by skilled craftsmen.

Each item is unique and slight variations in appearance are to be expected and celebrated as no two items are exactly alike.
