### Description

Isosceles triangle zinc and glass industrial pendant light. Bring a new dimension to your home interior space with the Eichholtz Harpers Light 1 Lamp.

Inspired by industrial factory light fittings, this feature pendant light features an exposed bulb fitting and robust, yet elegant, zinc metal frame.

Suspended from accenting ceiling roses and two suspension chains, the isosceles triangular shaped frame is complete with a paned glass surface, allowing the beauty of your interior surroundings to effortlessly filter through.

Illuminating a gentle radiance once switched on, the lamp will combine with accenting designer furniture and lighting from the Houseology Eichholtz collection for a layered ambience of designer style.

Please note: Hand sculpted by skilled artisans, each product is distinctively unique every time with no two exactly alike.

Light source: Requires 1x E27 40W Max (light bulb is not included)

Suspension: Ceiling rose and chain x2 are included.

Approximate net product weight: 8kg

This product is hardwired - professional installation recommended.
