Description

Monochrome square patterned cushions. Combine classic elegance with a modern edge with the Eichholtz Abstract Cushions Set of 2. A favourite with the Occa designers, we love the crisp modernism of the cushions monochrome design. The joyful union of black and white is patterned in a retro inspired square chequered pattern. Place the cushions on the sofa in the living room for an instant pop of on-trend style or create interest in the bedroom by arranging on the bed with coordinating cushions and throws for a layered and textured look. The perfect remedy to treat yourself or lovely designer gift for a special occasion, the Abstract cushions promise to make an impact as each cushion enhances the look and feel of your interior, sure to never go out of style.
