Description

Spend the evening gazing up at the stars and staring into space wondering if life really does exist out there with the Authentic Models Avalon Telescope.

Lose yourself in the clouds and get lost in space as your thoughts and worries appear worlds away while you spend an endless daydream lost in the grasp of the night sky.

The Authentic Models Avalon Telescope can be used either to accessorise a lounge or enhance the class and refinement of the study area. It comes complete with 20x magnification, adjustable legs, solid brass fittings, making it an overall quality piece your home cannot do without.
