

Flos Bibliotheque Nationale

Flos floor lamp with USB charger and glass shelves.

FL3151

Dimensions

Height: 150cm

Colour : Silver

Material : Stainless Steel & Polycarbonate & Methacrylate

Description

This beautifully elegant floor lamp from Flos has a simple diffuse light. But the truly unique feature of this lamp is a handy USB outlet placed on the base which enables the most common smartphones and tablets to be recharged (max 2A).

The base, rod stand and diffuser stand are finished in a chrome-plated die-cast zinc, with an internal diffuser and lamp-holder stand in opal coloured injection die-stamped PC.

The external shade diffusers are available in a choice of PVC fabric, injection die-stamped methacrylate with clear or smoke-grey finish, or silver or bronze on the inner surface, which is applied by vacuum aluminium coating.

From Flos and designed by Tobia Scarpa, give this modern and unique lighting solution a space in your home interior.

1 x MAX 150W E27 + CHARGER USB 5VDC

230 Voltage.
