

Flos Fantasma Piccolo

Flos Fantasma Piccolo

FL3195

Dimensions
Height: 183cm

Colour : Grey
Material : Cocoon & Steel

Description

Add a pillar of light in the Flos Fantasm Piccolo lamp. The tall floor lamp has a wire steel structure with a white powder coating sprayed with a cocoon resin to create the diffuser, which in turn is guarded with a transparent spray on finish. The finish of the lamp means light shines through without ever becoming overbearing. The light output can also be controlled with an electronic dimmer, found on the power cable of the lamp. The Fantasm Piccolo light will be an ideal addition to both timeless and contemporary interior schemes, injecting unique style and a commanding presence to the space. Similar to the Fantasma Floor light but with a more wavy and edged design, this lamp will look fantastic in either the living space, hallway or bedroom of your property. From Flos and designed by Tobia Scarpa, give this illustrious lighting solution and accessory a space in your home interior. Lighting information: 3 x MAX 60W E27 HSGS/W
