Fabric upholstery in 63% cotton 37% linen.

Description

The FLY chair by SPACE Copenhagen is a lounge chair which pushes the idea of lounging to its fullest. It allows the user to sit, lie, rest, and relax. Unlike many of the sofas and easy chairs in Scandinavian design history, FLY does not impose any particular posture onto the sitter. The seat itself is optimised for comfort, with loose cushions for the back that can be arranged according to the user's own needs. FLY does however adhere to tradition in other respects, the frame of the armchair has a slatted back rest, is made from oak, treated with white pigmented oil. It is the type of material and treatment that ages with true grace, only becoming more beautiful with time which our designers love. Each chair is upholstered in Chivasso Hot Madison tabby weave linen/cotton fabric mix in a choice of sand or dark grey. SPACE Copenhagen gather much of their inspiration from travels abroad, often in the form of ambience and mood.
