Description

Tan leather magazine bag from Eichholtz.

Add the final flourishes to your living room interior space with the Eichholtz Brunello Bag.

Smooth to the touch, this stylish leather magazine storage bag is the perfect accent for your lounge armchair.

Sculpted from tan leather, the bucket-shaped bag features an equestrian style handle for easy lifting as the inside provides plenty of room to store magazines, newspapers and those pesky TV remotes.

We love the smooth soft supple leather of this piece in rich chestnut leather which is distinctively unique every time with no two exactly alike. Complement with accenting Eichholtz luxury home decor accessories for a fine fusion of rustic-meets-modern style.

Aesthetic Note: Created from natural leather, each magazine bag features a unique exterior appearance every time.
