Description

Add style to your desk with a Chelsom Motion LED Desk Lamp. The lamp has a sleek look with straight lined structure comprising long body, sturdy square base and thin top arm. Made from steel and with a brushed nickel finish, the piece offers a strong LED reading light while the top arm can be rotated 180°, offering a versatile edge to the product. The light houses a black rocker switch as well as an integral driver. The Chelsom Motion LED Desk Lamp comes in two different finishes. Choose the one that suits the desk area or mix both for a unique take on the lighting collection. The lamp will make a refined addition to your desk in work or at home. Respected by professionals throughout the world, Chelsom has built its reputation on combining the look, design, understanding and technical knowledge of lighting solutions. Please note: This is a dedicated LED fitting which is not dimmable as standard – dimmable driver sold separately. Please contact customer services if you require a dimmable fitting with driver or if you require any further information. Ipad is not included. Requires 1 x 8W LED (sold separately)
