### Description

Contemporary Danish coffee table with marble top, rounded corners and oiled oak frame.

The & Tradition Fly Table SC5 pays homage to the pared back traditions of Danish furniture design.

A lounge furniture collection inspired by Space Copenhagen's travels abroad, Fly balances ambience, mood, form and function.

Elevated by a solid oak and oak veneer frame treated with pigmented oiled finish, the rustic grain structure invites the beauty of natural wood into the home.

Perfect for segmenting stark residential architecture schemes, the bespoke marble table top then provides an instant focal point.

Designed to withstand the demands of everyday use, FLY combines practicality and style for the rooms you use most.

Available in a choice of marble table top finishes, the appearance of each marble plate is utterly unique every time with no two exactly alike, making this a bespoke expression of style for the home.
