Description

This Muuto Reflect small sideboard has a unique design and shape which is attributed to the natural light of Scandinavia.

The corners on the front of the drawers have a stylish thickness and a curved face which offers light reflections that bounce off the oil treated wood veneers.

With four storage drawers for optimum space, the furniture piece rests on top of four sturdy legs and comes in either a natural oiled oak wood or stained black finish.

The natural feeling of the oak gives a salute to the masters of classic Scandinavian furniture making.
