GT0054

Dimensions  
Height: 20cm

Colour : Cream  
Material : Powder Coated Aluminium

### Description

A classic pendant ceiling light which takes its name from the French Mediterranean seaport of Toulon.

The inspiration for its unusually large flattened shade - which casts a particularly wide light comes from the ceiling lights to be found in old-fashioned boulangeries all over France.

The Toulon Pendant Light combines Provençal style with tried-and-tested practicality. It looks especially good hanging above a work surface, kitchen island or table, singly or in pairs.

Made of hand spun aluminium, the Toulon Pendant Light is available in a choice of colours.

It comes with a matching ceiling rose and 1.5 metres of black and white pendant braid, so you can adjust your light to the perfect height.

Requires HALO GLS E27 42-55W bulb or equivalent low energy bulb (not included).

CE Approved.
