Description

The Eye Down Light is a substantial wall-mounted light which is good for where you want to shed some serious light on the proceedings. Called an Eye Down Light for no better reason than that it reminds us of a half-closed eye, this light could be used as a porch light but is particularly good for lighting up pathways and corridors. The Eye Down Light's hot-dipped galvanised steel body is completely weatherproof, making it suitable even for coastal locations. The light's slightly rough finish and appearance are a result of the hot-dipping process and are an intrinsic part of its look. IP44 rated for outdoor or indoor use. CE approved Motion-sensor compatible Requires 1 x E27 bulb (Eco Halogen 42-55W or LED 10W not included).
