Description

The Down Light is a neat little wall-mounted light that can be used anywhere - inside or out - where you need some extra focus. Simply designed it is particularly good for lighting up pathways and corridors.

The St Ives Down Light's hot-dipped galvanised steel body is completely weatherproof, making it suitable even for coastal locations.

The light's slightly rough finish and appearance are as a result of the hot-dipping process and are an intrinsic part of its industrial chic look. Suitable for indoor or outdoor use.

Requires 1 x GU10 Halogen bulb (included).
