Description

Take a seat on the Design House Stockholm Family Chair No 2. The piece offers a contemporary take on the Swedish stick back chair and comes in two finishes. The chair features a simple design - synonymous with Scandic style - with curved chair legs and base structure, a smooth, flat seating base and basic stick detailing for the seat back. A multi-award-winning design, the chair is sold in the Museum of Modern Art in New York City and will make just as a stylish impression in your interior. The Design House Stockholm Family Chair No 2 comes in a white or black finish. Create your own family of chairs by mixing the two colour variations for a monochromatic effect to your seating arrangement. Part of the Family range of chairs from the brand, each piece is designed to stand out in its own right.
