Description

Sculpted glass table lamp with chocolate satin shade and gold PVC lining.

Add dimension to your interior space with the ambient beauty of the Heathfield & Co Galileo Table Lamp Gold.

Classic with a contemporary twist, the base of the lamp is mould blown from glass in the shape of a sphere.

Metal frit detailing between the layers of clear glass create an inviting texture as the glass sphere houses an opulent metallic finish on the inside of the structure.

Complete with a chocolate satin shade with gold PVC lining, it will combine wonderfully with accenting furniture and homewares from the Houseology collection to complete the glamorous aesthetic of your rustic-meets-modern scheme.

Please note: Requires 1x E27 light bulb (not included)
