Description

The Leoni Antique Brass Amber Wall Light adds style and presence. From Heathfield & Co, the light features a rounded wall base plate with small arm support in an antique brass finish. The light source is surrounded by a glass shade made from borosilicate glass in an oval shape that is purposely misshaped to create unique lighting patterns when lit. The glass comes in a striking amber finish, offering a noticeable contrast between the shade and structure. This wall light will look great in your living area, hallway or dining room. Requires 1 x E14 bulb (not included).
