

## Mooui Heracleum II Pendant Light - Small

Decorative LED pendant lamp with plant like shape and polycarbonate lenses.  
MO3860

### Dimensions

Height: Lamp: 53 cm <br> Cable: 30 cm - 400cm

Colour : No

Material : Metal Wire Frame, Polycarbonate Lenses, Ultra Thin Suspension Wire

### Description

This decorative LED lamp from Mooui is inspired by the fantastical Heracleum Plant.

Leaf shaped Polycarbonate lenses & ultra-thin suspension wire ramify from a metal wire frame branch structure creating a very technical, but natural shape.

This is achieved by using the technique of coating conductive layers, a design not possible with normal wires.

The Heracleum leaves are not frozen in one position, and can be freely re-positioned by rotating them around their stem.

Consists of 45 LED lamps.

Dimmable with mains voltage dimmer (dimmer for incandescent, halogen) using a dimmer rated for a low power luminaire (not included).

Input voltage of 110-127V~60Hz AC

Voltage on lamp < 5V DC (actual lamp surface functions as conductor)

Please see attached specification sheet for further detail
