

## Moovi Heracleum The Big O - Large

Decorative LED pendant lamp with plant like shape and polycarbonate lenses.

MO3863

Dimensions  
Height: 23cm

Colour : No  
Material : Metal Wire Frame, Polycarbonate Lenses, Ultra Thin Suspension Wire

### Description

This decorative LED lamp from Moovi is inspired by the fantastical Heracleum Plant.

Leaf shaped Polycarbonate lenses & ultra-thin suspension wire ramify from a metal wire frame branch structure creating a very technical, but natural shape.

This is achieved by using the technique of coating conductive layers, a design not possible with normal wires.

The Heracleum leaves are not frozen in one position, and can be freely re-positioned by rotating them around their stem.

Consists of 324 LED lamps.

Dimmable with mains voltage dimmer (dimmer for incandescent, halogen) using a dimmer rated for a low power luminaire (not included).

Input voltage of 220-240V~50Hz AC

Voltage on lamp < 5V DC (actual lamp surface functions as conductor)

Please note: Professional installation is recommended.
