### Description

Evoking the cool neutral colours of mountain stone, the intricate and textural pattern of the stunning Calvin Klein Mineral Maya Rug is reminiscent of ancient Mayan artefacts.

The custom-blend of pure New Zealand wool and high-performance Luxelle fibres woven on power looms has a rich silken finish that is beautifully reflective in light.

The rug features a gorgeous neutral colour geometric pattern in a two-tone finish that provides a soft contrast of colour.

The Calvin Klein Maya Rug is available in six different finishes, with each colour finish available in one of five various sizes.
