Description

Stainless steel hollow presentation column with a marble base and top from Eichholtz.
The Large Odeon Column comprises a thin structure of four sleek stem legs that join at the top and bottom.
The top and base of the column have a marble top that provides a monochromatic feel to the accessory.
The Large Odeon Column can be used for holding a vase or photo frame, or both, with one at the bottom and top.
The column is also available in a smaller size. Group both in the hallway or lounge for a complete look to the accessory range.
