Material : Bronze Finish

Description

Bronze table lamp with conical shade from Eichholtz. The Gordini Table Lamp comprises a bronze structure that includes a round base with two stems forming the main body of the piece. One stem holds the other and comes with two small fasteners. The lamp comes with a conical shade in a spotless white finish to offer a bold and monochrome effect. This lighting solution will channel elegance and luxury into your interior and will make a fine addition to the dining room, lounge or bedroom. The Gordini Table Lamp also comes in a nickel finish. Mix both around your interior for a unique take on your home lighting arrangement.
