Description

Set of two equestrian inspired artistic prints from Eichholtz. The first painting features a jockey sitting on a horse with a horse trainer close by, while the second sees two horses vying for position during a race. Each print also comes with an elegant script underneath. The gorgeous set features a lavish array of colour while each comes with a large wood frame with button stud border. The dark finish of the frame creates a monochrome effect with the white canvas. Place your set in the drawing room, hallway or dining room of your home for a look that exudes sophisticated appeal.
