Description

Three-tier storage unit made from ABS plastic and designed by Italian designer, Anna Castelli Ferrieri. The unit was made for Kartell while the plastic storage solutions' creation dates back to 1969. It is a classic design piece, emphasised by its addition to the MOMA in New York and Paris' Pompidou Centre, where it is still on display today. The round frame and sliding doors with finger hole handles underline the blend of functionality and refinement the designer's products are renowned for. With three storage compartments and table top offering versatility, the unit is ideally suited in the bedroom as a bedside table or side table in the lounge.
