

Kartell Hanger Coat Stand

Brushed steel coat stand with coloured hooks.

KA2497

Dimensions

Height: 170cm

Colour : Clear

Material : Brushed Steel & Transparent Or Painted Polycarbonate

Description

Brushed steel coat stand with aluminium and polycarbonate detailing, designed by Alberto Meda.

From Kartell, the Hanger Coat Stand brings together an elegant look with functionality through combined design and finishes.

While the frame is cast from brushed steel, the mobile hooks at the top are made from polycarbonate while the umbrella ring is made from chrome, die-cast aluminium.

The hooks of the coat stand offer a subtle burst of colour into the interior. It will make an ideal addition to the entrance hallway where it can be used to hang your jackets and accessories upon returning home.
