Material : Brass

Description

Square solid brass metal serving tray with rounded edges from Tom Dixon.

The Form tray is the sophisticated way to serve British Afternoon Tea. Stamped from a solid sheet, the stepped ridges add as much in strength as they do in stylish in decoration. Each tray has an Etched Tom Dixon logo to base with un-lacquered finish.

The un-lacquered brass finish will develop a natural patina as it oxidises and ages as is the nature of the material, which we believe enhances the beauty and character of the product.

An ideal home accessory for the design conscious individual.

The Form tray is carefully hand-made by skilled artisans making every tray unique and individual.
