Material : Antique Patine

Description

Grand lustre granville chandelier light.

This grand Château De Biron chandelier light has 8 individual candelabra fittings which can be combined with many shade combinations to suit your interior scheme.

Characterised by an exquisite antique brass finish, this statement chandelier has a raw natural appearance which is then offset against the fabulous cut glass pendant droplets which sparkle when illuminated. The layers of glass droplets form a fashionable decor which reminds us of icicles sparkling and shimmering on winter tree branches.

This lamp is compatible with the Eichholtz Shade Mix and Match. Please note lamp shades excluded, click to view the different shade options available.

Requires 8 x E14 Max 25W bulb (not included).
