Description

Porcelain sculptural vase set from Moooi.

Enhance your interior scheme with a hit of designer style.

Combining traditional porcelain sculpting techniques and captivating contemporary design, the Delft Blue No 10 is part of Moooi's iconic ceramic vase collection designed by historic ceramicist Marcel Wanders. Dating back to 1653, the original Dutch collection was produced by 'Royal Delft' to decorate and exude wealth and opulence in the heart of stately homes.

Characterised by their blue and white design, Marcel's creations have reinterpreted this ancient art to revitalise the interior of style-conscious homes.

The Delft Blue No.10 has been luxuriously hand crafted by skilled artisans, the collection has been sculpted from the finest white porcelain and decorated with accents of gold effect detailing.

Celebrated by museum curators and collectors the world over, the iconic Delft Blue No. 10 is just the addition you need to elevate your interior and complete your scheme in style.

The set includes: a rectangular floral pedestal with a sculptural sphere-like ornament and two sleek black porcelain vases.
