Description

Round concrete wood-burning fire pit with log storage.
Create a convivial focal point outdoors with the Ak47 Design Ercole Brown Fire Pit .

Enchanted by the fascinating magnetism of gathering around a fire, Ak47 Design combine simplicity, utility, style and functionality to provide the very best in luxury outdoor fire pits.

Made in Italy, its robust steel frame is rounded in shape with visible accents of oxidised steel which are innovatively treated against the elements, preventing surface dust and corrosion.

Tan concrete slabs surround the inner chamber, sculpted by master craftsmen and designed not to overheat.

A log well below completes the look, providing generous storage and adding a rustic edge to the piece.

Graceful and inspiring, yet dexterously informal, this is a traditional log fire pit with a contemporary twist.

Great for garden parties and barbecues, it is available in a choice of sizes so that everyone can gather round and enjoy the dancing flame into early hours.

Please note: This is a wood-burning fire pit and requires light assembly by 2 people.

Protecting your fire pit: Use the Ercole protective cover plate (included) to shelter the combustion chamber when not in use and prevent the escape of ashes in the wind and rain.

BBQ adaptable: Convert your Ercole Fire pit into a barbecue using the Ak47 Design grill kit (sold separately).

Artisan crafted: Due to the natural materials and production used, every fire pit from Ak47 Design is distinctively unique with no two exactly alike.

Small Approximate Weight: 310kg
Large Approximate Weight: 970 kg
