Large circular outdoor wood-burning fire pit.

KF0010

Dimensions
Height: 40cm

Colour : Brown
Material : Oxidised Steel with Galvanised Steel Base

Description

Large circular outdoor wood-burning fire pit.

Comfort your guests outdoors with the illuminating warmth of the Ak47 Design Zero Fire Pit .

Combining simplicity, utility, style and functionality, it is made by Italian outdoor icons, Ak47 Design.

Fascinated by the mesmerising allure of gathering around a fire, Zero has been created to bring people together to enjoy the captivation of dancing flames.

Master crafted in Italy, it is rounded in shape with visible elements of oxidised steel which are innovatively treated to repel wind and rain - preventing corrosion and unwanted surface dust.

A steel cover plate gives the fire pit an industrial edge - specially treated to stop overheating and isolating the fire's residual ash against the elements.

Please note: This is a wood-burning fire pit and requires light assembly by 2 people.

Protecting your fire pit: Use the Zero protective cover plate (included) to shelter the combustion chamber when not in use and prevent the escape of ashes in the wind and rain.

BBQ adaptable: Convert into a barbecue using the Ak47 Design grill kit (sold separately).

Artisan crafted: Due to the natural materials and production used, every fire pit from Ak47 Design is distinctively unique with no two exactly alike.
