Description

Outdoor fire pit with zen garden bowl from Ak47 Design.

An inspiring addition for style worshippers, the Ak47 Design Zen Fire Pit is an enchanting addition which will extend your interior style outdoors.

Inspired by ancient Japanese Zen gardens, the industrial 'ying' strength of oxidised steel and the enchanting 'yang' of the decadence of dancing flames combine in harmony to achieve a captivating focal point outdoors. Designed to inspire, this rounded outdoor fire pit, has a bowl-like base which can be filled with your own Zen materials.

At Houseology, we love the juxtaposition between smooth grey pebbles and stacked fire-wood which creates a perfect meditative space.

By night, illuminate this wood-burning fire pit and watch as your exterior transforms as shadows cast and dance among the flames.

Treated against corrosion and designed to contain the fire's debris and dust, this inspired addition is the perfect way to enjoy your outdoor sanctuary in true designer style.

Please note: This is a wood-burning fire pit and requires light assembly. Protecting your fire pit: Use the Zen protective cover plate (included) to shelter the combustion chamber when not in use and prevent the escape of ashes in the wind and rain.

BBQ adaptable: Convert your Zen Fire pit into a barbecue using the Ak47 Design grill kit (sold separately).

Artisan crafted: Due to the natural materials and production used, every fire pit from Ak47 Design is distinctively unique with no two exactly alike. Approximate product weight: 130kg
