Description

Set of two red seagrass woven baskets, available in a choice of colours. - Add a touch of boho-style to your home interior with the Murmur Seagrass Basket Set of 2.

Designed by Murmur, this decadent duo are inspired by textiles and hand-crafted homewares from their travels around the world.

Beautifully hand crafted from natural ropes of seagrass weave, this rustic set includes 1 large and 1 small handled storage basket.

Rustic in appearance, the design is completed by an unusual coil weaved base with accenting stripes of colour available in a choice of tones.

Offering style and flexibility, the baskets have nifty handles for easy transportation and can be folded down into a bowl-shaped basket, depending on the aesthetic you wish to achieve.

Please note: Due to the natural materials and artisan production used, each item is uniquely individual with no two baskets exactly alike.
